还是 VS 或者

Hello guys, I'm your Chinese teacher WEI. Today I'm going to explain the difference between“还是”and “或者”. These two different Chinese words are expressed in English with a word “or”.

But “还是”is used in the alternative questions. If there are two options you need to choose, you should say “choice A + 还是 + choice B?” Here are two kinds of fruits, so we can say “你吃苹果还是梨？”(Would you like to eat apple or pear?). And another word“或者”is used in a declarative sentence. If I ask you what time to get up, you can answer “I get up at 6:00 or 6:30” 我六点或者六点半起床。Now we can distinguish these two words. Please try to translate the two sentences. **“Are you student or teacher?” “I read Chinese books or English book.”**

大家好，我是你们的韦老师。今天我们看看“还是”和“或者”有什么不一样。

这两个中文词在英语中都是 or

还是常常用在选择疑问句中，如果我们要在两个选项中做出选择，我们应该说“choice A +还是+ choice B?”我有两个水果，想问你吃哪一个，我可以说你吃苹果还是梨？

或者常常用在陈述句中，如果我问你什么时候起床，你可以回答我六点或者六点半起床

现在我们可以区分这两个词，请你们试一试翻译这两个句子。 **“Are you student or teacher?” “I read Chinese books or English book.”**
